FRESHMAN WEEK EXTRA *No 1*

ST. MICHAEL'S COLLEGE, WINOOSKI, VERMONT

SEPTEMBER 16, 1964

WELCOME, CLASS OF '68

Welcome to St. Michael's, Class of 1966. Congratulations on being one of the 300 new Michaelmen who are participating in Freshman Week this fall.

A series of interesting activities has been planned for you during these few days of orientation. The aim is to help you see what life is at St. Michael's during the year. Your "big brother" from the Crown and Sword Honorary Society will also tell you about life on campus and in the Queen City.

A new chapter in your lives has begun. You are no longer high school kids but college men. Life at college will sometimes be easy, sometimes rough. It will be a time of self-testing.

Each one of you has the capability of successfully completing your studies. Think of the large number of students refused admittance because you showed a higher capacity.

St. Michael's offers an additional service to interested students. The Program of English for Foreign students, which starts next week, provides the opportunity for Michaelmen to meet and talk to students from Latin America, Asia and other parts of the world. These foreign students are in the States for the first time and the impression you give them is what they will convey to their fellow countrymen about the Americans and their way of life. You have an excellent opportunity to act as an unofficial good-will ambassador.

THE MICHAELMAN, your weekly college newspaper, is interested in you, your activities and life at St. Michael's in general. Your contributions to the paper will be gladly accepted for our consideration. We hope you will encourage your parents to subscribe and be informed of your activities at St. Michael's.

You'll meet the rest of the upperclassmen Monday, when they arrive for registration and Tuesday classes. As you meet them, you'll feel more a part of St. Michael's.

It's a wonderful place. We hope you'll like it, too.

The Editors

Fr. John Stankiewicz Named New Dean of Men At SMC

Greeting the Class of 1968 will be a new dean of men. He's not really new to the job. He had it before.

The Rev. John Stankiewicz, S.S.E., most recently superior of the Edmundites at Dunkirk, N.Y., returns to the campus where he spent the first 15 years of his priestly life.

"Father Stank" as he is familiarly known was a crack athlete in student days and continued that interest later when he served as moderator of athletics. He was not above rising at 4 in the morning to put a new surface on the hockey rink. This was also good for his popularity.

Fr. Stankiewicz who succeeds Rev. Francis X. Gokey, S.S.E., has also served his Alma Mater as treasurer and teacher of Scripture.

The new dean has a handshake that suggests he hasn't put his athletic days too far behind him. He's six foot four and solidly packed at well over 200 pounds. He played varsity football and still hits the longest ball on the faculty softball team. Of late, he's taken to hitting a golf ball even farther.

Fr. Stankiewicz is a native of Springfield, Vt. He has both his bachelor's and his master's degrees from SMC.

THE NEW - Latest aerial view shows steady development of SMC since World War II. Even chapel has filled out its concrete bones. It will be ready in spring.

Chapel Dominates Growing Campus

By JEAN LeVIEUX

The big chapel which St. Michael's is erecting is symbolic of the great growth of the college since it was founded 60 years ago.

When the chapel is completed next spring, it will replace the small one that has served in Jemery Hall for the past 40 years. That space will then be converted to classrooms.

Until the end of World War II, St. Michael's was a college for some 200 men, but its popularity was as great as the demand for college facilities by the returning veterans.

St. Michael's agreed to expand. With the aid of some 23 buildings, acquired as surplus from nearby Fort Ethan Allen, St. Michael's was able to teach, feed and house five times its prewar enrollment.

Starting with Cheray Science Hall in 1949, a succession of permanent buildings sprang upon campus. The dormitory quadrangle which can house about 850 eliminated the need for many of the temporary wooden buildings.

A new athletic plant provided facilities that not only served the intramural and intercollegiate needs of the college. It housed such professional teams as the New York Giants and the Montreal Alouettes in their early training.

The erection of Alliot Hall, as the student center and dining hall, honors the long career of a founder of the college. He is the Rev. Dr. Eugene Alliot, S.S.E. A former president, Fr. Alliot is currently recuperating in the Fanny Allen Hospital, but his colleagues are betting he'll be back shortly to supervise the completion of the chapel.

The chapel which is due for completion in the Spring will be called The Church of St. Michael the Archangel. It is dedicated to honor the clergy of the statewide diocese of Burlington. They provided much of the leadership for the campaign to finance the chapel. A campaign in the state of Vermont and among friends and alumni covers a three year period. Our president, the Very

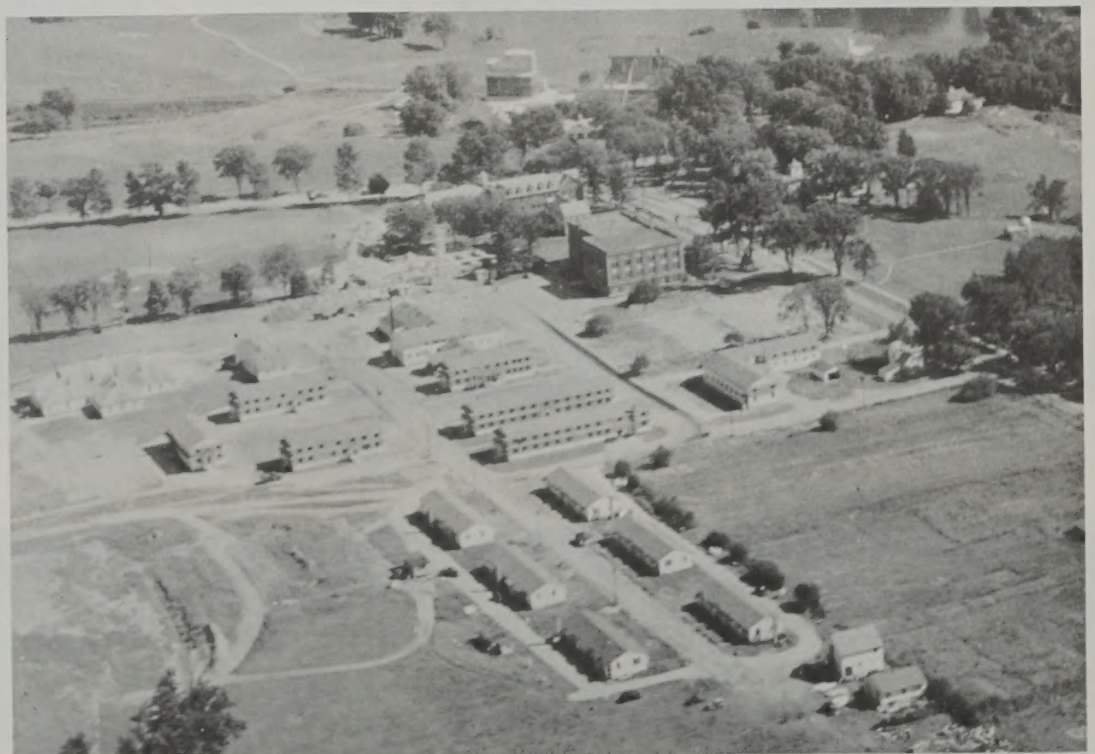

Rev. Gerald E. Dupont, S.S.E. will travel as far as California in October to get additional funds for the chapel.

In addition to the 400 acres on the main campus, St. Michael's has this year acquired about 130 acres and 30 buildings at the former Ethan Allen Air Base. These were given to the college by the federal government and several of them were put into shape for immediate use.

The big gymnasium, a computer center, four apartment buildings and a student dormitory as well as storage buildings are being used this fall. Others will be put into use when the funds are available.

Since 1904, St. Michael's has been growing steadily. The Class of 1968 brings 300 more future alumni. They will find a friendly spirit on campus and a warm welcome in the community.

Freshman Week is specially devoted to you newcomers. Have a good time, but remember you are part of a proud tradition.

THE OLD - Aerial view of St. Michael's in 1947. Notice the barracks which have been eliminated. The construction of Science Hall had begun left of Jemery Hall.

Dear Abbot

By Edmund St. Michaels

Dear Abbot:

This will be my first stay in Vermont. Is the weather here really what everyone warned me it would be?

Warm-blooded Freshman

Dear Warm:

In Vermont, we don't worry about the weather - just the heat.

D.A.

Dear Abbot:

I've heard that there aren't very many girls in the Winooski area. Is this true?

Fast Frosh

Dear Fast:

Of course not! Why, there are at least a hundred girls from the local high schools just dying to meet all three hundred of you new Michaelmen!

D.A.

Dear Abbot:

What happens if my parents don't subscribe to The MICHAELMAN?

Reader

Dear Show-off:

They'll also expect you to write.

D.A.

Dear Abbot:

What's the word on the new dean?

Five Foot Two

Dear Eyes of Blue:

He's six foot four.

D.A.

Dear Abbot:

Could you explain the marking system at St. Michael's?

Puzzled Pupil

Dear Puzz:

Well, count your class mark as 3/4, your homework as 6/7, your exam mark as 4/3, and your attendance mark as nothing: divide your "times tardy" into your room number and then go and ask your instructor. He might know.

D.A.
